## Gaga

Gaga is a movement language developed by Ohad Naharin, Artistic Director of the Batsheva Dance Company. It's the daily training of the Batsheva dancers.

Gaga encourages and teaches multi-dimensional movement, efficiency of movement, the use of explosive power, texture of movement, the connection between pleasure and effort, quickness, the clarity of intention, stamina, recognizing one's own movement habits and acquiring new ones, ways to reverse atrophy and weakness, helps dancers to maximize their training and strengths...

Workshops can be geared to professional or student dancers, as well as dance enthusiasts.
